

Alliance for Regulatory Coordination

May 4, 2020

Dawn B. Crim, Secretary
Department of Safety and Professional Services
dsps@wisconsin.gov

Dear Secretary Crim:

Thank you again for inviting me to represent the Alliance for Regulatory Coordination during your plan review discussion group meeting on December 17, 2019. The ARC supports improvement of state level plan review services provided by the DSPS and its partners.

As you may recall, in January we recommended to you the repeal or simplification of statutorily required plan review participation fees charged to municipal plan review partners of the Department. That recommendation pertains to eliminating barriers to municipal participation in state level plan review, and to better utilization of municipal plan review resources.

Since January the Alliance has developed another recommendation. This one pertains to improving the measurement of DSPS plan review availability and timeliness. Accompanying this letter is a white paper entitled "Improving the Measurement of Plan Review Availability and Timeliness – Recommendations to the WI DSPS from the Alliance for Regulatory Coordination".

We ask that you give serious consideration to our recommendations. We believe that more accurate measurement of DSPS services will help your customers in their day to day activities, as well as help legislators understand the true situation relative to DSPS customer service.

Sincerely,

Robert G. DuPont, Founder
Alliance for Regulatory Coordination
