Subj: Complimentary ACI Spring Convention [Registration](#)  
March 29 – April 1, 2020  
Rosemont, IL  
Promotion Code 259859260

Dear ICC Chapter Officer/Director:

The American Concrete Institute is pleased to offer you a non-transferable complimentary registration to the ACI Fall Convention being held at the Hyatt Regency O'Hare Chicago Hotel in Rosemont, IL for use from Sunday, March 29, 2020, through Wednesday, April 1, 2020.

ACI enjoys a strong relationship with the International Code Council at the national level, working on a variety of efforts including, but not limited to state, local, and international code adoption, education and certification programs, and Building Safety Month. Recognizing that like ACI, ICC is a member driven organization, this invitation is being provided to government officials in leadership roles of the ICC chapters in Illinois and surrounding states with the expectation of improving our relationship. Further, we hope to discover additional opportunities for cooperative efforts at the national and chapter levels and working directly with individual building code departments.

We believe that by attending the convention you will obtain a better understanding of ACI, our mission and processes as well as having the opportunity to participate in educational sessions which tend to include the latest advancements in concrete technology.

ACI is a not-for-profit professional society and a leading authority and resource worldwide for the development, dissemination, and adoption of its consensus-based standards, technical resources, educational and training programs, certification programs, and proven expertise for individuals and organizations involved in concrete design, construction, and materials, who share a commitment to pursuing the best use of concrete. We have over 100 chapters, 215 student chapters, and nearly 30,000 members spanning over 120 countries.

If you choose to accept this invitation, we would encourage you to visit at least one technical committee and one certification committee meeting to gain an understanding of the ACI member driven process exercised to develop technical publications and programs. You are welcome to attend any of the educational sessions; encouraged to observe the student fiber reinforced bowling ball competition;

and network with ACI members at the opening session on Sunday; Concrete Mixer on Tuesday evening and the President's Reception on Wednesday evening. You might also find the exhibit booths in the

*Always advancing*

exposition and the student poster session interesting. Attached is a list of activities that we believe you might find particularly interesting.

Thank you in advance for your consideration of this invitation. Please visit the ACI [convention website](#) and enter the promotion code 259859260 to obtain your complimentary registration. If you accept this offer, please advise [Kerry Sutton](#) and she will try to make herself available during the convention to assist you.

Sincerely,

A handwritten signature in black ink, appearing to read "Ron", enclosed in a small rectangular box.

Ron Burg, PE  
Executive Vice President

A handwritten signature in blue ink, appearing to read "Steve", enclosed in a small rectangular box.
